

# POMEROY TELEGRAPH.

Published by J. H. HORTON, at the Pomeroy Telegraph Office, Pomeroy, O., on Thursday, January 24, 1880.

**Day Cooks, Clothing, &c.**  
Simon Silverman, who has heretofore continued to have "the cheapest store in town," now reiterates his assertion, and respectfully invites an examination of his stock and prices. The location of this establishment is on the corner of Front and Sycamore Streets.

**Anniversary of Washington's Birth-Day.**  
The "Ohio State Guard" contemplate giving a social entertainment in Athens, on the 23d of February. It will undoubtedly be a grand affair, as many of the prominent citizens of the place are connected with its management.

**Dr. G. C. Coker.**  
This gentleman has permanently located himself at Middleport, where he will be found in readiness to treat the "horror of mankind," the cancer, without the use of the knife. The Doctor, we believe, holds himself strictly to the cure of this disease, and malignant tumors generally. His certificates are highly commendatory, coming from the source where he generally finds his opposition. All afflicted with such diseases as he treats should give him a call.

**Fun Ahead.**  
The citizens of Rutland Township have appointed Saturday, the 28th inst., as the occasion of a "Grand Fox Hunt." The inclosure will be within the following boundaries: The north line of the ring beginning at H. Plummer's, near the village of Rutland; thence east along the road to where it forks, near Thomas' creek; thence south to H. H. McElhinney's; thence west along the road, up Leading Creek, to Bingham's Mill; thence north to the place of beginning.

**Acton Insurance Company.**  
There is scarcely any limit to the business of this Company. Its operations extend into every section of the United States, and is regarded by all as the tip-top Insurance Company of the day. It has recently enlarged its capital by a million dollars, and in this respect, stands head-and-shoulders above any other company. Its agents everywhere are no. 1 business men, and they seem to be appreciated by the Institution. As an illustration of this, Mr. O. Branch, the agent at this place, received a handsome surprise in the shape of a cabinet, which is neatly manufactured out of black walnut. The Company has furnished similar conveniences to all its agents, at a great cost, but in the end it will certainly inure to its benefit. Call on Mr. Branch for policies, and if the risk is such as the Company permit him to take, you can get it, and if you should have the misfortune to be burnt out, you will have the good fortune of being insured in the Acton.

**TRANSFERS OF REAL ESTATE.**  
The following transfers of Lands were made on the Books of the Auditor of Meigs County for the week ending Jan. 21, 1880:

**BEPORD TR.**—John H. Jones to Thos. Higgins, Jr., 10 acres in sec. 25; \$175.

**CHESLER TR.**—W. B. Rammells to Nancy C. Dickerson, 25 acres in sec. 5; \$180.

**RUTLAND TR.**—Joshua Gardner to B. V. Peck, 12 acres in sec. 1; \$45.

**POMEROY.**—W. A. Barringer to H. Cohen, Lots Nos. 89 and 90; \$1,000.

**SETTON TR.**—V. B. Horton to Philip Bear, 3 acres in sec. 1 and 7; \$200. Same to John Klein, 3 acres in sec. 1 and 7; \$200. Same to Jacob Horner, 3 acres in sec. 1 and 7; \$200. M. J. Nease to A. W. Nease, 14 acres in sec. 30; \$300.

**Rickey's Improved Broadcast Seed sower.**  
We gave notice a couple of weeks since that the right of Meigs and Athens Counties, for this valuable improvement, had been purchased by Messrs. A. Todd and Thomas Spiller, of our place. Since that time we have seen the Sower in operation, and to say the least of it, it worked admirably. It scatters the seed with amazing accuracy, and we presume that at least two-thirds of the time usually given to sowing by the old method can be saved. On the whole, we think a farmer who has an ordinary quantity of grain or seed to sow, cannot afford to be without one. Mr. Geo. H. Rupp, of Middleport, is the manufacturer, who is now making a large number for the above named gentlemen. Call and see them.

**Machine Mining and Manufacturing Co.**  
The stockholders in the above Company met at Pomeroy on Thursday last for the purpose of organization, having received their charter. The organization was effected by the election of—

**THAYER HORTON, President;**  
**RICHARD R. HUDSON, Secretary;**  
**CARLETON YOUNG, Treasurer.**

Mr. Horton is well known to this community, and his election as presiding officer will place the Company on a sound footing. A better selection for this office could not have been made by the stockholders.

In regard to the Secretary, as to all the other officers, it may be said that the right man was selected for the right place. Mr. Hudson's extensive acquaintance abroad—his identification with the transportation business of our place—his active integrity—his capability—all tended to point him out as the one specially fitted for this position.

**C. Young, Esq.,** is a citizen of Racine, who enjoys the confidence of the community, and will prove himself worthy trust imposed in him.

With the above able and efficient officers to manage the affairs of the Company, there can be no doubt of the rapid improvement of the works. As there is a vast expense and much work attending the fitting up and development of such works, it will yet be some time, we presume, before the facilities for discharging coal will be complete.

## New Grade and New Pavements.

Some opposition was made to the action of the present effective Town Council last summer, when the grade was fixed, and an ordinance passed to erect pavements on the sidewalks on Front Street, from Court to Williamson's Flouring Mill. There is none of that opposition existing since the work has been completed, and we believe all are now heartily glad that it was done. The same Council has now fixed a grade for the sidewalks on Front Street from Court to the west end of the corporation, requiring the same to be paved. We hope it will meet the hearty concurrence of all. See ordinance.

## Coal Coal!!

We are authorized to state that Mr. Joseph Blackburn will furnish the best Black Coal at the reduced price of 5c. per bushel, at present, and if competition seems to demand it, at as much lower terms as can be afforded by any other person. Truly, "Competition is the life of trade."

## BOOK NOTICES.

**God's Land's Book.**  
This "price of Magazines" has been received for February. It fully comes up to former numbers. We will furnish the Telegraph and this work one year for \$3.75. As the regular subscription price of the Magazine is \$3.00, this will be an excellent way for subscribers to procure the Telegraph at half price.

**The Ladies' Home Magazine.**  
For February is at hand. Published by T. S. Arthur & Co., Philadelphia, at \$2.00 per year, single subscribers; four copies for \$5.00. The contents of this Magazine are exquisite. The steel plate entitled, "Olive Plants," cannot fail to bring home scenes to the memory of every one. The Telegraph and Home Magazine can be procured for \$3.00 per year, payable in advance.

**Peter's Magazine.**  
This excellent work is not on our table, nor have we received it for a year. If the publishers will send it to us, together with their terms of clubbing with our paper, we will guarantee them at least one subscriber. We await their answer.

By the way, we have been permitted by a friend to look at the February No. of this work (didn't borrow it, though), and we will not hesitate to say that the subscription money cannot be better invested than in this way.

## Documents.

The Annual Reports of the Boards of Trustees and officers of the Central Ohio Lunatic Asylum, and the Deaf and Dumb Asylum, and of the Directors and Wardens of the Ohio Penitentiary, have been received. Hon. T. R. Stanley is our thanks for these favors.

**Icon.** Benj. F. Wade, the Senator who constantly represents Ohio in the U. S. Senate, has favored us with a copy of his speech, delivered before that body on the 14th ult., the concluding portion of which will be found in to-day's paper. It is an able address, and we are confident will be read with interest.

**Ohio University.**  
We received some time ago, but failed to notice its receipt, the Annual Catalogue of the Ohio University, at Athens Ohio. This old established institution, we believe, is filling the hopes of its many friends.

**Marquette College.**  
Catalogue received for 1880-81, and while it is not so elaborate as that of last year, it is equally explicit. The faculty of this institution is equal in ability to any other Institution of the kind in Ohio, and the advantages of students much greater. I. W. Andrews, D. D., is President.

**Agricultural.**  
The Ohio Cultivator, for which every farmer should send, has a most extended notice in another column of our paper. This branch of literature should be liberally supported.

**Political.**  
The "Address of the People's Club of Philadelphia," is also on our table. The ostensible object of this address, which embraces 31 closely printed pages, is to lay before the American people the private character and public career of the able and honored U. S. Senator from Pennsylvania, Gen. Simon Cameron, with a view to his nomination for the Presidency. The following are extracts from the pamphlet:

"He comes from the ranks of the people, sympathizes with them, understands their views and feelings, and knows how to promote their interests. Born and bred, as he has ever lived, a Pennsylvania Working Man, who so satisfactory to the working men of the country for the Presidency as he? Who of all that have yet been named, most worthy of the people's confidence, and who like to command their enthusiastic support, than the distinguished man who has surmounted all the difficulties of early orphanage, poverty, and destitution, and prepared himself for the high position of Senator of the United States, which he now fills with so much honor to himself and credit to his native State?"

"We appeal, then to the people of our States—not the politicians, but the people themselves—those who have at heart the welfare of the country—to ponder well the suggestions thus made to them. Let their omnipotent voice be heard responsive to the nomination of Pennsylvania's choice, and they will secure a candidate, who will not only lead them to victory, but who, when elected, will inaugurate an administration of the government that will elevate and improve the country, restore harmony and peace, and cement the bonds of Union."

The Memphis Appeal gives the Democrats in the House a dressing for abandoning Mr. Boocock to vote for Maynard of Tennessee. "They committed an enormous blunder in so voting."

"South-American diplomacy was at the bottom of it, and South-American diplomacy has succeeded in getting the Democracy into such confusion that there is but little hope that it will ever regain the position which it attained on the first day of the session."

## OMINOUS.

"While a discussion was going on in the Court House, on Monday last, upon the 6th resolution offered by the committee, a constable arrested the Rev. Mr. Greene, of the Northern Methodist Church, for having uttered seditious remarks. He was tried before Justice Ball, required to give bail, and sent on for further trial."

The above extract was taken from the Kanawha Valley Star, and printed in the Kanawha Republican, from which paper we copy it, together with the following defense of the Rev. gentleman:

"He has been a devoted Unitarian Methodist, for forty odd years—laboring greater portion of that time in Western Virginia—a member of the W. Va. Conference since its formation in 1848. Few men, throughout a long life, have exhibited to their fellow-men a purer character. He has always been regarded and esteemed by the thousands that know him well as an humble, devoted Christian, and a patriotic, law-abiding American citizen."

The same paper states that the following was the evidence adduced on the trial:

"A man by the name of Hughes testified that as he was about 20 yards from the road where Father Greene was riding by alone, he heard him muttering to himself these words: 'That the slaves must and ought to be free, and that he would walk up to his knees in blood to free them.' This Hughes, we learn from respectable gentlemen, is a sorry creature."

What should be the comment upon the above proceedings? It is alleged that Rev. Mr. Greene, a Northern Methodist minister—who, it is admitted by the Republican, 'has always been regarded and esteemed by the thousands that know him well, as an humble, devoted Christian, and a patriotic, law-abiding citizen'—has been heard to utter 'seditious sentiments.' And to whom did he utter these sentiments? The testimony goes to show that he was heard to 'mutter them to himself,' while riding along the road, by an individual twenty yards from the road!

Indications seem to be that the 'chivalry' are determined to drive from their midst all who do not side with them in their nefarious designs against those who entertain any sentiment repugnant to the 'divine institution.'

From the Kanawha Valley Star.

## THE POSITION OF THE SOUTHERN METHODIST CHURCH.

On Sunday night of the 8th inst., the Rev. Mr. Kelly, of this place, preached in the Southern Methodist Church, a very able and practical sermon on the respective and reciprocal duties of husband and wife, parent and child, master and servant.

The last part of his discourse was devoted to that all important relation and subject, master and servant. Mr. Kelly showed by the scriptures that slavery was not a sin, was not *per se* a moral evil. Had it been a sin it would have been denounced by our Savior when on earth. For then more than half the Roman population were slaves. And neither Christ nor the Apostles ever rebuked anyone in their teachings denounce slavery a sin, but on the contrary, they recognized the relation of master and servant (i. e., slave) as a political relation, and assigned to both (master and servant) their several duties—masters be kind to your servants—servants obey your masters. He defined the position of his own church on this great question.

He did not interfere with the political relation of master and servant, but he did not directly or indirectly by word or action, declare slavery a sin or a moral evil. But on the contrary they recognized slavery as an existing institution of the Southern States, and following the example of Christ and the Apostles, they taught the duties of the master to the slave, and of the slave to the master; and did not regard African slavery a sin *per se*. Would that all other Methodist ministers in Virginia and the entire South entertained and preached such wholesome and conservative and truly Christian doctrines!

As will be seen, the above justification of white slavery is from that very Democratic paper, the Kanawha Valley Star. Can the Democracy of Meigs County coincide in these sentiments, advanced by a Southern minister, and endorsed by a paper that is pledged to support the nominee of the Charleston Convention?

## A CARD.

Post Office, Kanawha Valley, Va., January 19, 1880.

I have just heard from a friend, that some of my Methodist friends are under the impression that I have discontinued some of their publications.

I take this public manner of stating, that such is not the fact. I have discontinued no publication for the reasons alleged, nor do I intend to do so. There is no such authority vested in a Postmaster.

Will here state that many publications have been examined by me, under directions of the Department, and as yet I have found none that contained incendiary sentiments, and but seldom an allusion to the subject of Slavery. I shall continue to examine all suspected papers, and if I find any publications that come within the letter of the law, I will send them over to the Justice of the Peace, and inform the subscriber of the disposition of his paper.

Those who know me, ought to know that I will not pursue an underhand course in this matter. Everything that is done in my official capacity, will be done openly 'above board,' without regard to persons.

D. H. SNYDER, P. M.

## Don't Want Northern Subscribers.

The Madison (Ind.) Courier says: During the Presidential canvass in 1856 a club was formed in one of the townships in this county by a party of Republicans, and one copy of the Richmond (Va.) Enquirer subscribed for.

The paper did some service in that campaign. The Democracy of Virginia pressed hard upon the Democracy of Indiana. The Virginia paper exposed the fallacies and falsehoods the Hoosier Democrats were forced to tell to sustain themselves. The subscription to the Enquirer has been forwarded regularly since. A day or so ago the subscription price was forwarded to Richmond for the Enquirer for 1860. The money was returned. The Richmond Enquirer does not want subscribers in Indiana.

Mr. W. H. Radcliffe, formerly of Cleveland, has been notified by the Postmaster in New Orleans that the Republican Journal of the former city are incendiary publications, and that he must stop receiving them.

## TIMELY ADVICE.

The editor of the Medical Reformers remarks that, as in the spring and early summer, the sensibilities of the digestive organs are increased, the full diet of winter will, if persisted in, induce fever. This is by no means a new discovery. The ancients named the month of February, when their spring began, from *Februm* a fever, and wisely recommended, as a preparative for the heats of summer, judicious exercise, light diet, and the full and free use of water.

Professor Holloway, the distinguished English practitioner, has done something more than this. He has discovered and introduced new remedies for all the derangements incident to a change of temperature, which have saved the lives of thousands of unacclimated travelers and sojourners, in every region between the equator and the poles. When a sudden transition from cold to heat produces dyspepsia, fever, diarrhoea, cholera, or dysentery, Holloway's Pills seem to subdue the disturbance in the system at once, and to bring all its functions into harmony with the new atmospheric influences by which it is surrounded. Where the shock occasioned by the change affects the skin or glands, the Ointment, in combination with the Pills, soon puts the external organization into a healthy condition.

Under these circumstances, common prudence suggests the propriety of having both remedies always at hand at the commencement of the summer, and of providing a supply of them before starting on a journey or voyage. In this climate, summer and autumn are, unquestionably, the seasons most prejudicial to health, and therefore nothing should be left undone that will have the effect of fortifying and bracing up the system, purifying blood, and putting the digestive apparatus in good working order. So far as our observation goes, Holloway's Pills will infallibly secure these results. Families who have habitually used them for years as a Spring, Summer and Fall medicine, declare that a complete exemption from the complaints usual at those seasons has been the invariable consequence of their exhibition. This we can readily believe, knowing as we do, that they exercise a triple influence upon the internal organs. They purify the fluids, remove obstructions, and invigorate the digestive powers. There are few systems so healthy as not to require such helps to Nature at this critical period of the year, and it is therefore obvious that a course of Holloway's Pills is proper, as a protective measure.—Boston Journal.

By order of the Board of School Examiners for Meigs County will meet on the 24th inst., at 10 o'clock A. M., at the Court House, in Pomeroy, for the examination of Teachers.

Examination to commence at 10 o'clock A. M., and continue till 4 P. M.

No Teacher need apply at such examination who has a certificate valid for three months from the date of said application.

By order of the Board, W. H. LASLEY, Clerk.

Holloway's Ointment and Pills.—The skin diseases to which the human body is subject are peculiarly subject, as well as those of the internal organs, to a superabundance of salt and the humors of the system, and the life are readily removed by Holloway's Ointment. The disfiguring blotches, pustules, pimples, etc., arising from impure perspiration or obstructions in the secretory organs, are removed by this purifying and beautifying agent. It has an equaling a means of clearing the complexion and relieving the skin of discolorations and eruptions. The pills, which carry off all internal humors, are an important auxiliary to the Ointment in such cases.

## Transportation.

**SEMI-WEEKLY PACKET.**  
"GREY EAGLE,"  
A. JONKALY, Master; FRANK J. OAKES, Clerk; Leaves Pomeroy every MONDAY at 10 A. M., and FRIDAY at 4 o'clock P. M. In order to make time we are compelled to leave this early.

Leaves Cincinnati every WEDNESDAY and SATURDAY at 4 o'clock P. M. This arrangement is permanent, and the boat will make prompt and regular trips. Her accommodations and speed are equal. It will do business at regular intervals, and trust that the citizens of Pomeroy and vicinity will give us their patronage and influence.

By order of the Board, W. H. LASLEY, Clerk.

**DOUGLAS IN TENNESSEE.**—The Democracy of Humphreys County, Tenn., met the other day in county convention and passed resolutions, repudiating and spitting upon Douglas and his doctrines. They resolved that he should abide by the choice of the Charleston Convention, "except it be Stephen A. Douglas."

**ALBANY, Jan. 19.**—Hon. Clark B. Cochrane's severe illness has terminated in insanity. He was taken, yesterday, to the Utica Asylum, where it is hoped his recovery will be speedily effected. The exciting agitation in Congress is believed to have greatly contributed to this much deplored result.

**REUNION.**—Within the past week over thirty negroes have escaped from their owners in Mason County. It has been impossible for them to cross the Ohio with any security, and it is supposed that they are harbored by the free negroes residing in Maryland along the line.—Frankfort (Ky.) Freeman.

**Destruction of the Western Female Seminary.**  
On Jan. 10, Jan. 14.

The Western Female Seminary at this place, burned to the ground this morning. The teachers and pupils all escaped.

The Cincinnati Enquirer says that if Douglas is to be killed off for entertaining such views as he does, the entire Northern Democracy must, for entertaining the same views, be killed off too. Oh, well, we are not going to distress ourselves to death about that.—Louisville Journal.

A Washington correspondent says that Gen. Bowman, of the Washington Constitution, is "a man of very little bottom." We should be glad, in view of his two events, that he is a remarkably well balanced man.—Louisville Journal.

The Hon. S. S. Cox, of Ohio, is very angry at having been called a dough face. The little man's face is doughy, but his feelings are crusty.—Louisville Journal.

## MARRIED.

On the 19th inst., by Rev. S. M. Bright, Mr. W. H. KERRY and Miss SALLIE ROGERS, both of Hartford City, Va.

On the 19th inst., by the same, Mr. JOHN N. PRALL and Miss MARTHA MCNAMEE, both of Pomeroy.

## DIED.

In Cincinnati, on the 13th of January, of smallpox, Edna Giles, son of Rev. Chauncy Giles, aged 4 years and 10 days.

In Decatur, Illinois, on the 3d of January, of typhoid fever, Ellen M. Giles, youngest sister of Rev. Chauncy Giles.
